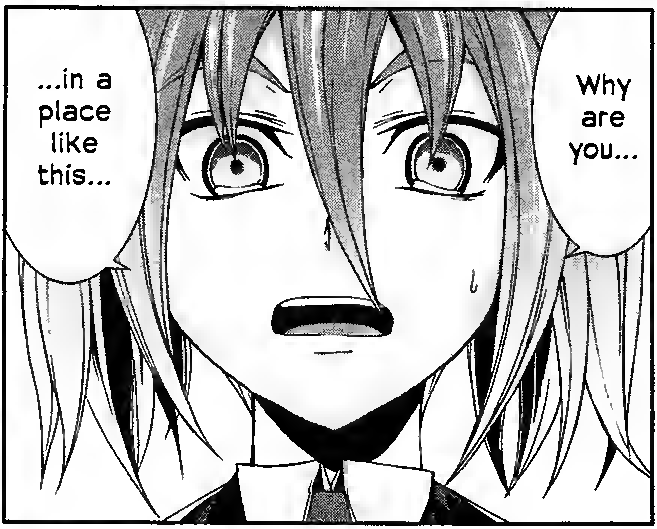
Because of work.
Now instead of that,

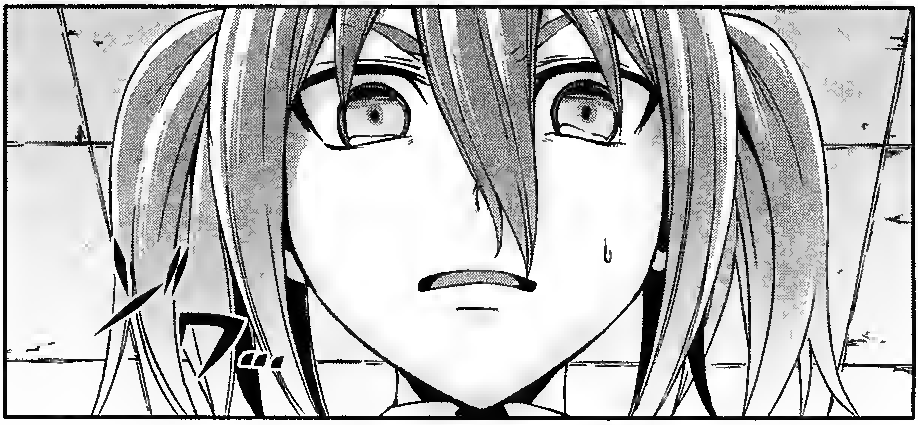


...in a place like this...
Why are you...

第24話：俺が真の可変ライダーだ

I am the True Kahen Rider!

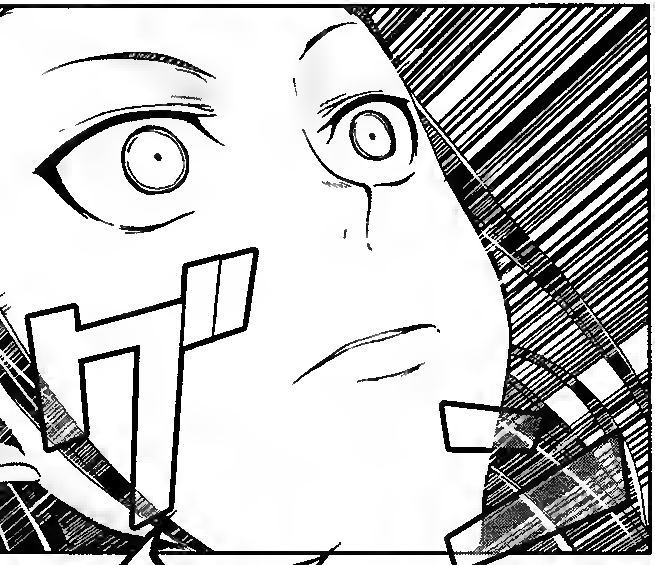
Hah... How?
It's clearly uncomfortable seeing such an overdone youth dress-up
I'm pretty sure I could still pass as a female high school student, right?
Although I specifically made this just to infiltrate the school,
Oh you... Goki -chan dear...
Anyways, it's fine. Hurry and call up Fujii Alice.
Or else...
...hasn't changed at all, has it!
That kind of cheeky attitude

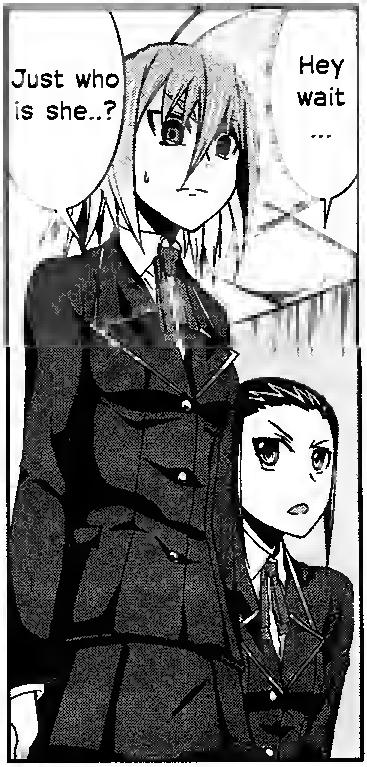


TL Note: She actually says "Ah?" in a more vulgar tone to ask for confirmation but it makes no sense in written English so I swapped it.

But I still can't trust you...
!!!

I'm empty -handed, aren't I?
Look!





Just who is she..?
Hey wait ...

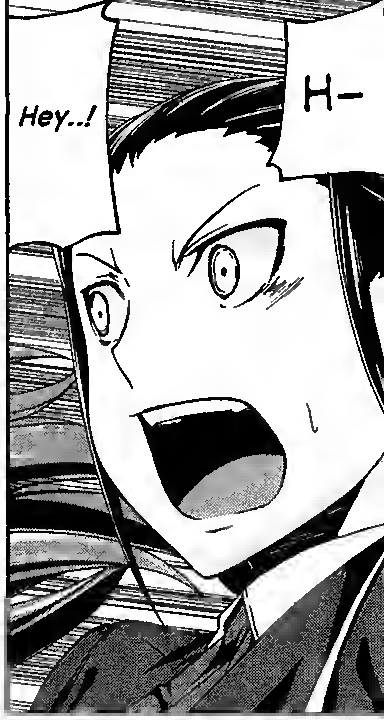
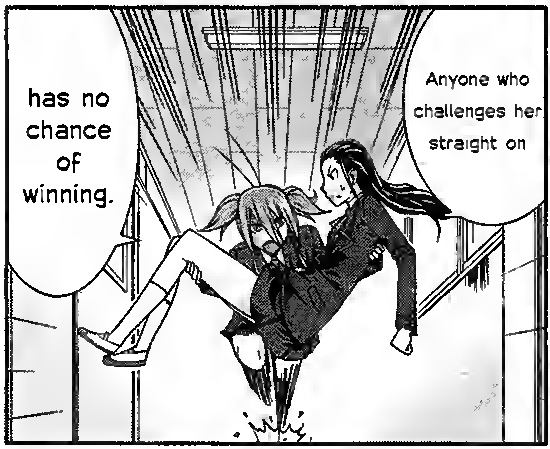
What're you doing all of a sudden...
Just what the heck's with that girl?!



Hey..!
H-

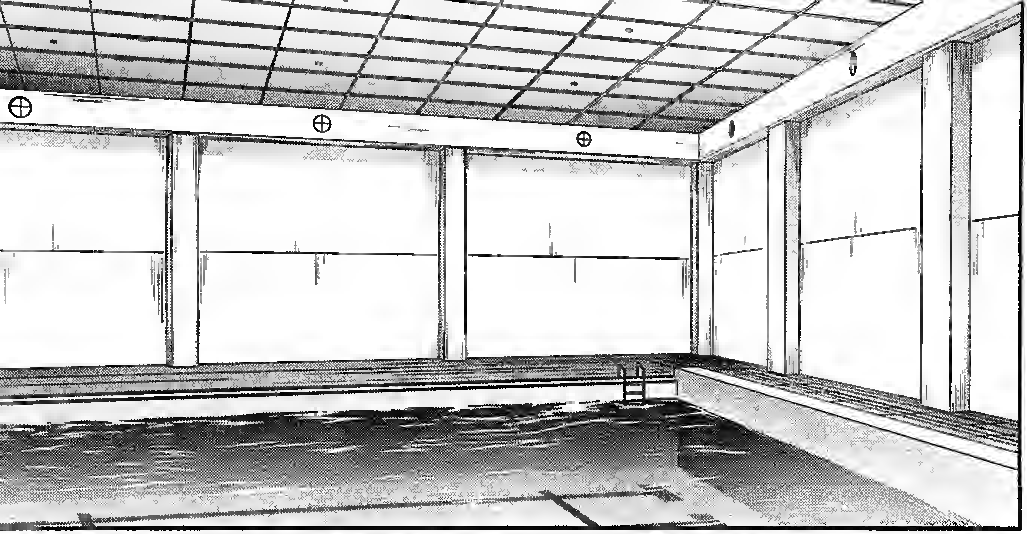


Anyone who challenges her straight on
has no chance of winning.

She's quite a dangerous opponent.

In this case, we'll have to go to the pool
We have to get Alice -sama and escape!

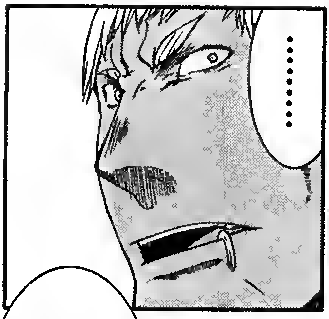
I guess there's no point in chasing them down
They managed to get away.
Ahh...
It's rather frustrating, but...
...a cockroach that dedicates itself to running!
There isn't exactly anybody who can stop...
...of one specific person...
Though if we were to speak...



.....

Wait.

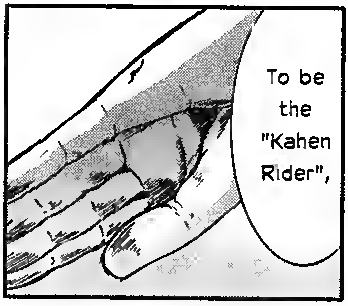
That just now...
...was nothing.



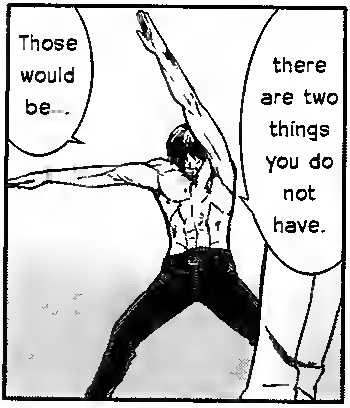
……

The "Kahen Rider" is the strongest title.

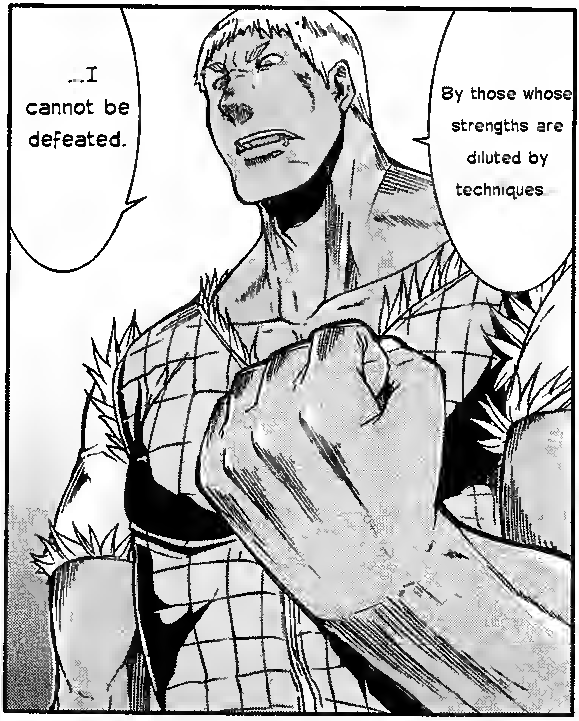
Again.
I messed up the timing when I should've called the technique.



To be the "Kahen Rider",



Those would be…
there are two things you do not have.



…I cannot be defeated.
By those whose strengths are diluted by techniques

...and justice.
...love...
For those who do not have love in their hearts...
I'm sure you'd know as well.

The one stupid kick you remember best huh.

I wondered what it would be but it's the same as before.
Hmph.

He was aiming for...

While probing the situation with their antennae,
but only after a long consideration do they make a decision...
they select a target,
...is long.
The time between sensing a prey and an attack...
That is the true, original hunting style of the Kamadouma.
those calculated movements are the source of their success when they're trying to subdue their prey.
In response to that sort of situation occuring in reality,

even cases where they use triangle jumps...

Hmph!

It's as I told you before.

Even if it's the same stupid move I remember best,
if I repeat it a hundred times, it will become a technique.
